Job Summary

Posted On: 3 Dec 2024

Application Deadline: 25 Dec 2024

Career Opportunity

r-pac (Bangladesh) Limited is a part of the r-pac network of companies, originating from USA, producing and marketing world class apparel identification and tagging products to many global retailers and brand owners. We have set up a manufacturing unit at Rupganj, Narayanganj. Now we are seeking an application from competent, dynamic and experienced individuals to fill up the following position (01).

Director - Process Improvement

Job Responsibilities:

- 1. Process Analysis and Optimization**
 - Identify bottlenecks and inefficiencies in current processes and conduct regular time and motion studies to optimize workflows.
 - Streamline processes for manufacturing by reducing waste and improving resource utilization and implement Lean Manufacturing principles and other methodologies (e.g., Six Sigma) to enhance production efficiency.
- 2. Quality Assurance and Control**
 - Collaborate with quality control teams to ensure high-quality standards are met for all accessories and identify quality issues and implement corrective actions to prevent defects and rework.
 - Develop quality metrics and conduct regular audits to ensure adherence to industry standards.
- 3. Cost Reduction and Efficiency Improvement**
 - Analyze production costs and find ways to reduce expenses without compromising quality and implement process automation and upgrade technology to achieve more efficient production.
 - Collaborate with procurement and supply chain teams to source cost-effective materials and minimize lead times.
- 4. Cross-Functional Collaboration**
 - Work closely with other departments, including production, quality control, supply chain, and procurement, to ensure cohesive operations and act as a liaison between management and operational teams to align improvement strategies with business goals.
 - Participate in strategic planning and contribute insights on how process improvements can meet long-term objectives.
- 5. Sustainability**
 - Implement sustainable practices to reduce the industry's environmental footprint, such as waste reduction, recycling, and efficient resource use.
- 6. Continuous Improvement Culture**
 - Foster a culture of continuous improvement by encouraging team members to suggest and participate in improvement initiatives and regularly assess industry trends and emerging technologies to stay competitive and improve internal processes

Education & Skill Requirements:

- Bachelor's degree in any discipline (however, it may consider for qualified candidates)
- Master Black Belt Certification - Lean Six Sigma
- Skills in Industrial Engineering, TPS, Training & Development
- Experience Requirements: Minimum 15 years in relevant field

So, if you enjoy challenge, we would like to hear from you by sending your detail CV along with passport size photograph within 25th December 2024, to recruitments.bangladesh@r-pac.com via email.
